

# Heat is Hot Rap

## By Mr. Warren

### Verse 1

I be teaching about science in the class and in the street  
I ain't talking about D.Wade or Chris Bosh I'm talking Heat  
"We" Know that Heat rises from the bottom to the top  
Yeah you watched that video, so you know that Heat is Hot "Hot"  
Hotter than a fire, Hotter than a flame  
Its 1 period science class we don't play no games  
We all about learning, we all up in this lesson  
Its three types of heat transfer radiation, convection, and conduction  
Yeah I got bars don't believe me ask Naturi, ask Miranda, ask Emily  
Mr. Warren going hard  
Going ham, going dum, Radiation is like the sun,  
Conduction if you touch it, convection like water in your oven

### **Chorus / Hook**

Heat is Hot , Heat is Hot, Heat is Hot , Heat is Hot  
I'm sweating! x4

---

### **Disclosure**

Please note that this song is not grammatically correct. It is written to help students understand the three types of Heat Transfer listed below

Radiation- the transfer of heat through space using electromagnetic waves.

Convection- the transfer of heat through liquids and gases.

Conduction- the transfer of heat between substances that are in direct contact with each other.
